The Coney Island Cyclone

Looks really good! I'm glad you included more information about the history of the park.

About page should say "Coney Island Cyclone" not just Coney Island

You could include some more old pictures on the history page but you do have a whole photos page so it would just be for aesthetics of filling out the page

Gallery is really nice!

Take a look at what happens when the screen gets narrow- sometimes information gets lost

Overall really good job it looks great
